

## Kevin Bechtel

I credit this fitness center, the awesome staff and instructors, and my fellow classmates for my physical and mental well-being, especially given the circumstances of maximum telework. If re-elected as your representative, I will continue working with my fellow Board members to resolve the numerous issues facing the Board, including policy and procedures on safely re-opening, transitioning to a hybrid exercise platform of in-person and virtual, and fiscal management. While we might not know what the future will bring, I will continue to guide and serve so that the Fitness Center can benefit our members as best as reasonably possible.
